## CONTACT

[contact@guillaume-lecomte.fr](mailto:contact@guillaume-lecomte.fr)  
[Linkedin Profile](#)

France / Remote

## EDUCATION

- HIGHER TECHNICAL DIPLOMA (BTS) IN MIS  
2008-2010  
Lycée Parc de Vilgénis, Massy
- HIGH SCHOOL DIPLOMA (STG – MARKETING TRACK)  
2006 - 2008  
Lycée Marguerite Yourcenar, Morangis

## ACHIEVEMENTS

- Led the redesign of two SaaS platforms (data collection & fatigue scoring)
- Reduced infrastructure costs by 50%
- Improved data import speed from 20–30 min to 2–3 min (10–15×)
- Designed a microservices + gRPC platform adopted by EASA and 5 airlines
- Implemented monorepo, multi-service CI/CD and independent deployments

## LANGUAGES

- French (native)
- English (bilingual)
- Russian (basic knowledge)

## PROFILE

CTO with 14+ years of experience designing and scaling SaaS platforms. Expert in cloud architecture, technical strategy and engineering leadership, with a proven track record in high-performance systems, team structuring and aligning technology with business growth in startup/scale-up environments.

## PROFESSIONAL EXPERIENCE

### WELBEES — CTO & LEAD DEVELOPER

2021 – Present · Remote

- Defined and executed the technology vision, cloud architecture and innovation strategy.
- Led the full redesign of two SaaS platforms (data collection & fatigue scoring).
- Designed a microservices ecosystem using NestJS, gRPC, protobufs and a REST API Gateway.
- Improved CSV import performance from 20–30 min → 2–3 min (10–15× faster).
- Reduced infrastructure costs by 50% by replacing unused legacy systems.
- Platform adopted by EASA and 5 international airlines.
- Built a monorepo + multi-service CI/CD pipelines with independent deployments & granular rollback.
- Structured and mentored the engineering team: code quality, best practices, product collaboration.

### CONSULTING / IT SERVICES (AVANADE · AZEO · NEOTECH) — ENGINEER & LEAD DEVELOPER

2010 – 2021 · Paris & Bordeaux

- Long-term client engagements (avg. 3 years), including:
- Dekra Automotive Solutions — Senior Fullstack Developer (2016–2021)
- Rebuilt tablet/web apps with offline mode & photo capture → significantly improved field adoption.
- Cdiscount — Technical Lead, Web Analytics / Tracking (2014–2016)
- Led the Tracking / Web Analytics domain, improving behavioral analytics & data reliability.
- Coordinated multiple Feature Teams and oversaw the analytics roadmap.
- AT Internet + Engie (2010–2014)
- Built internal applications (Web Analytics, energy) and mentored junior developers.
- Main stacks:
- React · React Native · Node.js · .NET Core · AngularJS · MongoDB · Azure Service Bus · GitLab CI · Docker/AKS
